### Dear colleagues!

Educational Institution «Brest State Technical University» holds XIX International Scientific Seminar «**Perspective directions of innovative development of construction industry and engineering training**».

For almost 20 years Belarusian HEIs which train engineers and carry out research in the construction industry take turns to host the seminar on the construction industry problems (Minsk, BNTU; Brest, BrSTU; Polotsk, PSU; Gomel, BelSUT; Mogilev, BRU; Grodno, GSU).

On October 23-25, 2014, the seminar will take place in Brest, Belarus.

This year the seminar coincides with the 80<sup>th</sup> anniversary of Timofej Maksimovich Petsold, an outstanding scientist in the field of reinforced concrete, Honored Worker of Science and Technology of the Republic of Belarus, professor, Doctor of Engineering. Seminar plenary session will be devoted to this event.

### SEMINAR TOPICS:

- Analytical and numerical models of the resistance of elements made of different constructional materials;
- Impact on building structures, impact calculation models;
- Materials and construction technologies of building structures, durable structures engineering;
- Geotechnical aspects of construction facilities design;
- Structural design standards: national and European standard values;
- Energy-saving building materials and construction solutions;

- Improvement of engineering training for the construction industry.
